**8 Questions**

**1. How did you get into modeling?**  
I started modeling in 2015 when I was approached by a friend who was a model. She showed me some photos and I was like, 'I can do that.' She said, 'You can? Well, you can try.' So I went to a casting call and I got a job. From there, it just snowballed. I got more jobs, more clients, and more opportunities. It's all about being open to what comes your way and saying yes to as many things as you can.

**2. What advice do you have for aspiring models?**  
My advice is to be professional, be on time, and be prepared. Always have your portfolio ready to go, and make sure you're looking your best. It's also important to have a good attitude and to be easy to work with. The modeling industry is a competitive one, so you need to stand out from the crowd. Be confident, be yourself, and don't be afraid to take risks.

**3. How do you stay motivated when things get tough?**  
I stay motivated by focusing on my goals and reminding myself of why I started modeling in the first place. I also surround myself with supportive people who believe in me and encourage me to keep going. It's important to have a strong support system, especially when you're starting out and things can be challenging.

**4. What are your favorite modeling jobs?**  
I love doing fashion shows, magazine shoots, and brand campaigns. I also enjoy working with different photographers and stylists, and seeing the final product of my work. It's a great feeling to know that you've helped create something beautiful.

**5. How do you balance modeling with your other life commitments?**  
I balance modeling with my other life commitments by being organized and prioritizing my time. I make sure I have enough time for my family, my friends, and my hobbies, while still making time for my modeling career. It's all about finding a balance that works for you.

**6. What are your future plans in the modeling industry?**  
I plan to continue to grow my modeling career and take on more challenging projects. I also want to expand my reach and work with more international clients. I'm excited to see where my career takes me in the future.

**7. How do you handle criticism and negative feedback?**  
I handle criticism and negative feedback by staying calm and not taking it personally. I know that everyone has their own opinion, and I'm not going to let it affect me. I focus on the constructive feedback and use it to improve myself. I also remind myself that I'm doing this for myself, and I'm proud of what I've accomplished so far.

**8. What is your biggest achievement in modeling?**  
My biggest achievement in modeling is being able to support myself and my family. It's a great feeling to know that you've made it on your own terms and that you're able to provide for the people you love. It's also a great achievement to have built a successful career out of something that you love to do.
